

7th

International Polysaccharide Conference

11-15
October 2021
Nantes, France

Characterisation of polysaccharides - Chemical and enzymatic modifications - Colloidal assembly - Cellulose dissolution, regeneration and products - Structure-property of plant cell walls - Gels and porous materials - Drug delivery - Bioactive polysaccharides - Bioprinting, scaffolds and regenerative medicine - Polysaccharides in food processing and digestion- Recycling, biodegradation, environmental and sustainability assessment- Energy and electronics - 3D/4D printing - Nanocellulose based materials - Natural fibre reinforced composites - Natural binders and fillers in construction

Deadline for abstract submission: March 31, 2021

Acceptance of oral communications: June 15, 2021

Registration deadline: October 1, 2021
